

THE UNEXPLODED BOMB—

Articles to Report How You Can Protect Your Family and Property

Most of the bombs which whistle down on this city when enemy planes fly overhead will explode with the accompanying destruction for which they were designed.

But some of them will crash through buildings, paved streets and factories or bury themselves deep in the earth. These are known as unexploded bombs, or UXBs, to the military and civilian defense officials who have to deal with them.

UXBs are divided into two types, time bombs which are set to explode hours or days after ploving their way into the ground, or bombs in which the detonating device has at least momentarily failed to work.

Continues Raid Danger

Sometimes these unexploded bombs are cleverly placed by the enemy where they are calculated to do the most damage possible. One may be dropped in a railroad switch yard or in the midst of a factory which is working around the clock on war production.

It would be bad enough if the bomb actually exploded on impact. It's worse when it doesn't, because activity in the immediate area of the UXB must cease until the bomb has been rendered harmless and removed. Other UXBs may land in residential districts, which likewise must be evacuated until the bomb is removed. This disruption of civil life and of national production facilities makes the UXB the most dangerous and devastating of war weapons.

No one knows or can tell when the unexploded bomb will go off. And until it has either exploded or been removed the air raid is, in effect, still on. Unexploded bombs planted throughout the city are just as dangerous to you and your family, to our production for war as if squadrons of enemy planes still flew overhead.

Why This Series Is Published

We present here the first of a series of three articles, authorized by the U. S. Office of Civilian Defense for the Ninth Civilian Defense Region, to acquaint you with the UXB and your responsibility in helping to protect yourself, your family and your city.

How You Can Serve

The Western Defense Command and Fourth Army, the Ninth Regional U. S. Office of Civilian Defense and your Civilian Defense Council have developed a simple reporting and operating system on the West Coast to defend you against

these death dealing instruments of war.

In this system you, too, have a function, and a very vital one. In subsequent articles on the UXB we will tell you about this system of rendering inactive the enemy's most dangerous weapon and where your responsibility lies in this method of defense.

Workers Should Start Keeping Records of Income and Expenses

All wage and salaried workers in Los Angeles county must begin at once to keep detailed bookkeeping records of every cent of receipts and expenditures, if they expect to avoid unnecessary income tax payments and trouble with Uncle Sam's revenue collectors next year, C. B. Tibbetts, president of the Los Angeles County Chamber of Commerce, warned today.

Pirate Lightweights Wallop Torrance Bees

San Pedro's undefeated Class B football team moved another notch nearer the league championship yesterday by whipping the Torrance lightweights 25 to 10 in the closing game of the first round of Marine League play.

The Bees put over a touchdown in each of the four periods to waltz to an easy triumph. After the first two scores, reserves were given a chance to play and Coach Chuck Bever went far down his list to give players a chance to see action. Yesterday's triumph was the fourth straight win for the Bee Babies. They face Banning next week and can sew up the crown.

P.T.A. Council Will Meet In San Pedro

Chairmen to be featured at the Nov. 19 meeting of Lomita-San Pedro Council, P. T. A. will be study and art leaders. The meeting will be held at Cabrillo Avenue school in San Pedro and the Bandini P. T. A. will serve the luncheon. Mrs. Mead French will report on the Community Chest drive.

Members will take notice of change of dates of meetings due to the holidays this month, the November meeting being held Thursday, Nov. 19, and the Block Mothers conference will be held Monday, Nov. 16, having been postponed from Armistice Day.

"Every employer should call workers' attention at once to responsibilities under the new tax law, and explain to them the importance of keeping itemized accounts," Tibbetts said. "The new revenue act applies to all income received this year, and any records that can be dug up now to show expenditures will save individuals a lot of tax money."

"Under the new legislation it is possible to deduct all payments made this year for state sales taxes and probably all gasoline taxes, while medical expenses in excess of five per cent of net income are deductible on income tax returns up to a fixed amount. However, the taxpayer must be able to produce records supporting these claims for deductions."

Victory Tax in 1943
"Unfortunately, citizens will be forced to pay unnecessary taxes next year on this year's income, because most individuals have not kept records of expenditures now held deductible. That makes it all the more necessary to maintain accurate accounts for the remainder of the year, and from then on throughout all the years in order to escape future penalties."

At least 19 cents out of every dollar of taxable income received this year will be taken by normal and surtaxes, with surtaxes rising steeply as income increases.

Attention is called to the "victory tax" of five per cent that must be deducted from the paychecks of all wage earners and salaried workers beginning Jan. 1, 1943. Part of this tax is to be returned after the war unless the taxpayer chooses to use the postwar credit to buy government bonds, pay life insurance premiums or retire debts.

City Ambulance Fund Gains \$130 Gift

In accepting a check for \$130 from George Figueroa and Jim Seeds of the 20-30 club for the city ambulance fund, sponsored by the Kiwanis club, President Gaston Areq last week thanked all those who had anything to do with the presentation of the stage comedy "Three Corners Moon" here Aug. 10.

The check was the net proceeds from that amateur entertainment. Areq especially commended the work of the young people of the city, the Episcopal Girl Scouts, who added to the ambulance fund by the sale of candy during the show.

A 65-year-old Michiganander gathered 150 pounds of scrap metal and wheeled it by barrow to the village collection center five miles away.

Draft Furloughs Cut to One Week

Shortening of furloughs for draft inductees to one week will become effective with those reporting to induction stations on Nov. 17, Selective Service headquarters said this week in Washington, D. C.

Those reporting through Nov. 16, however, will continue to get the two-week furlough which has been in effect for some months to permit men who are

Recipe No. 12

1 package vanilla pudding powder
1/2 cup apricot jam
1/2 cup apricot jam

Put pudding powder in saucepan. Stir in gradually diluted apricot juice. Then add milk and salt. Heat to boiling, stirring constantly. Continue stirring and cook slowly for 30 seconds. Remove from heat and fold in apricots and vanilla. Cover and chill. At serving time, put into 6 dessert dishes. Arrange halves of vanilla wafers around edges. If desired, garnish the top of each pudding with an apricot half as illustrated.

NOTE: Other plain cookies or thin slices of plain cake may be substituted for the vanilla wafers.
*Cooled, dried, or canned apricots, grapes or peaches including juice may be used.
